Work Experience

Full Stack Developer
Hashtag Web Solutions Pvt Ltd

November 2023 - Present

Hetauda, Nepal

In my role as a Full Stack Developer, I am deeply involved in both frontend and backend development, utilizing the MERN stack (MongoDB, Express.js, React, Node.js) to handle the entire development process of web applications.

Frontend Developer
Minimalistic Digital Marketing Services Pvt. Ltd.

July 2023 - October 2023

Hetauda, Nepal

During my time as a Frontend Developer, I focused on creating visually appealing and user-friendly interfaces using React. I collaborated closely with designers to bring their visions to life, transforming mockups and wireframes into fully functional and responsive web pages.

Projects

Education

2019 - 2024

Tribhuvan University (BScCSIT)

Computer Science, Information Technology

Gained extensive knowledge of computer science and information technology through rigorous coursework and hands-on projects. Worked on several notable projects, including a web application for university event management and a machine learning model for predicting student performance. Actively engaged in extracurricular activities that enhanced leadership, teamwork, and technical skills.
